To the Kennesaw State University Community –

It is with tremendous sadness that The Graduate College announces the loss of Ms. Precious C. Williams, Senior Graduate Admissions Counselor, and alumna of Kennesaw State University. For more than a decade, Ms. Williams was an important and committed member of the Kennesaw State University community.

Ms. Williams’ Kennesaw State University family members remember her as a positive, energetic colleague and friend. She was an unflattering champion of our students. During her service in the Bagwell College Education Student Services Office and The Graduate College’s Office of Graduate Admissions, students would comment on her singular efforts and authentic commitment to assisting them in achieving their educations. This commitment was recognized by the University, resulting in Ms. Williams’ repeatedly earning promotions to positions of increased responsibility – promotions she viewed as providing her an opportunity to help an ever-greater number of KSU students.

Despite an entirely too-short life, Ms. Williams leaves a significant legacy of dedication and service to others – one we will continue to honor as we reflect on our collective loss.

Our thoughts and prayers are with her family in this difficult time.

Mike L. Dishman, J.D., Ed.D.
