Meeting called to order at 2:00pm.

1. Summer Enrollment Push  
   a. Check in with program directors of their knowledge of the expectation of 20% increase in enrollment this coming Summer compared to last Summer.  
   b. Reports that some departments have scheduled additional courses.  
   c. Suggestion that “non-degree” status be established to allow people to take graduate courses without being admitted to a program. Could be a way to “sample” a program and then decide to apply for full admission.

2. Accelerated Bachelors Masters (ABM) Follow Up Discussion  
   a. The curriculum pause is being lifted so it is time to put plans for new ABM programs in place. Programs will need to propose the curriculum from freshman through completion of masters and run through the curricular approval process.  
   b. Questions and comments from floor:  
      i. Chris Totten – working students cannot take full time loads like the “Double Dawgs” program.  
      ii. Bill Bailey – created his programs of study with 5 years in mind but students can slow down after they are in the masters portion of the program.  
      iii. Nikki Palamiotis – Course Program of Study, CPoS, (system to track courses in relation to degree progression and financial aid) will need to see that the courses are in the student’s program of study in order to be covered by financial aid. Therefore, there will need to be a program of study specifically for ABM students.  
      iv. Rebecca Hill – with only 9 hours you can’t get to 4+1  
      v. Joe DeMaio – could do 3.5+1.5  
      vi. Bill Bailey – can use to attract top High School students to stay from undergrad through to graduate
vii. Chris Totten – will need support staff for marketing
viii. Chris Totten – where is the line between the old ABM and the new program
ix. Rebecca Hill – Double Dawg program of BS in PolSci to MPA shows that they take more than 9 graduate courses while still an undergrad but only double count 9 hours.
xi. Susan Raines – interdisciplinary programs have no program of study
xii. David Baugher – do not focus on labels like 4+1 or 3+2, instead, focus on creating a curriculum that shows the required courses for a combined bachelors masters program. Undergrad programs are laid out in the catalog with the required courses not the time expected that you complete. This would be the same, lay out the required courses. If they student wants to move through at full time they can, if they need to go slower, they can.

3. Review of Summary of Graduate Assistantship Evaluations from Fall Semester 2018
   a. David Baugher reviewed a document showing the “highlights” of the summary of graduate assistantship evaluations from Fall semester 2018 (see attached).
   b. Comments included:
      i. Susan Raines – May need to clarify what we mean when we ask if the faculty member and the student “met” to discuss their contract. Some may interpret that as only a face-to-face meeting.
      ii. Susan Raines – Shared that their program has an orientation meeting with their GRAs which includes a cultural component. They have found it to be helpful for students to better understand the expectations of their position.
      iii. Rebecca Hill – Shared that they have run a GRAD 101 “workshop” that discusses expectations and resources for graduate students.

Meeting adjourned at 3:00pm
